

# STOP STAMPING PRESS MAINTENANCE HEADACHES WITH **THE MAYFRAN AUTO BELT CLEANER**

Tired of excess scrap buildup at the tail end of your stamping press conveyor? Tired of dealing with the time, labor and maintenance issues that come with it?

The Mayfran Auto Belt Cleaner can help. Where traditional strategies like airblasting and motor-driven options are minimally effective and require costly compressed air and electricity, the Mayfran Auto Belt Cleaner mechanically engages directly and effectively with the conveyor belt to efficiently remove more oily scrap metal from your belt surface.

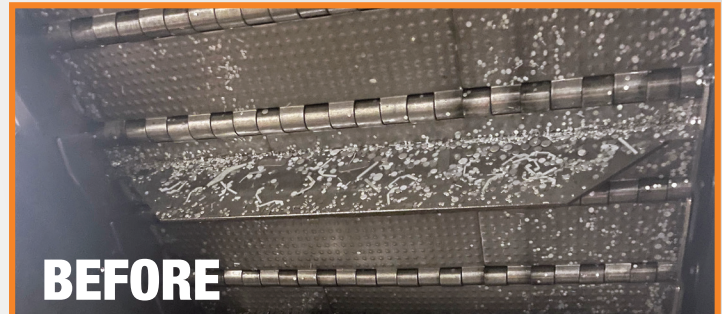

# THE ART OF **MOTION** IN ACTION

## A Revolution for Stamping Scrap

A complete system with a dribble chute, the Mayfran Auto Belt Cleaner is tailored specifically for the needs of stamping plants, representing a significant advancement in conveyor maintenance.

### With the Mayfran Auto Belt Cleaner, you can:

- Save time by eliminating inefficient and manual belt cleaning processes
- Maximize uptime by reducing shutdowns associated with cleaning
- Get more from your maintenance crews, allowing them to focus on other critical tasks
- Minimize safety concerns by reducing scrap buildup on the pit floor

The Mayfran Auto Belt Cleaner patent-pending design has already proven to be an invaluable addition to the production processes of world-leading automakers—and it can have major benefits for your production floor too.

**Note:** The Mayfran Auto Belt Cleaner must be installed by an authorized Mayfran representative.
